The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/563,366	Applicant(s) KADOMOTO ET AL.	
	Examiner Brad Harcourt	Art Unit 3676	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pickard (US Patent No. 3,120,282) in view of Miller (US Patent No. 1,499,024).

Pickard discloses a wireline core bit comprising water swivel 20; drill rod 10; core barrel 37; inner tube 30; overshot assembly 125 that “is hydraulically propelled towards the core barrel inner tube assembly which is to be withdrawn” (col. 10, lines 49-50); drill chuck 17 to grab and rotate the drill string. Water swivel 20 has ports to receive fluid from tubular 22 and to provide fluid to tubular 21.

In reference to claim 4, Pickard discloses mechanism 122 to withdraw inner tube 30 from said drill rod.

Pickard discloses all of the limitations of the above claims with the exception of upper and lower water supply ports that allow pressurized fluid into the water swivel assembly. Miller discloses a water swivel assembly (Fig. 2) having two ports 36 and 39. Port 39 is disclosed as only to be an outlet for wastewater. However, the claim calls for the device to be adapted to allow pressurized fluid into the water swivel, and the device disclosed by Miller is inherently capable of doing that. It would have been obvious to a person having ordinary skill in the art at the time of the invention to include two water

inlets on the apparatus of Pickard in view of Miller to provide a redundant means to supply water to the assembly.

In reference to claim 5, the input ports 36 and 39 disclosed by Miller are disposed in the sidewall (Fig. 2).

In reference to claim 6, the water input ports 36 and 39 are perpendicular to the longitudinal axis of the assembly.

Response to Arguments

Applicant's arguments with respect to claims 3-6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
